INDUSTRY NEWS

According to a recent report by Price water house Coopers International Limited, an international business consulting service provider, the Indian animation industry is poised to grow by 23% in the next four years!

Cartoons that were strictly in the domain of Cartoon Network are now a regular feature of many channels including POGO, Hungama TV, Nickelodeon, Disney XD and Disney Channel. From merely being a country that helps Hollywood studios make animated films, we are now witnessing several Desi production houses evince interest in making such films.

A GREAT OPTION!

Bachelor degree in animation (BA/VFXA) turns you to an Autonomous Animation Course but gives you place to claim your solid career in animation industry. This university animation courses are ideal for people seeking their future in the following industries...

- ★ Animation & Movie industry
- ★ Electronic media(TV & WEB)
- ★ Corporate sector as a pre visualiser
- ★ Gaming Industry (Mobile & PC)
- ★ Mobile technologies
- ★ E-Learning

Y-U NEED A GRADUATION IN ANIMATION ??

Till the universities recognize the animation courses all the multimedia courses were short time and diploma programs. But if you compare with origin countries of animation we are lacking the quality of production output because of improper foundation of the arts background leads to less quality of manpower. It requires a great curriculum in various levels and it can't be possible by a short time diploma programs.

To improve the quality of work levels, some universities were initiated graduation courses in animation to establish strong foundation among the upcoming young artistes, that leads to compete in the international market, which causes international quality of work flows to India.

Eligibility Criteria for Bachelor degree in animation

- ☑ Finished 10+2 or equivalent
- ☑ Passion for Design, Creative thinking
